Acknowledgement of Non-Insurance Coverage for Services Rendered

I agree, and it has been explained to me that the following services at Foothills Family Medicine are not generally considered and accepted with respect to insurance coverage.

- Any medicinal item such as botanical, homeopathic, nutraceutical, etc

Usual and customary Evaluation and Management or other medically necessary services may be billable to my insurance but medicinal items cannot be billed.

I understand that this requires my payment in full for medicinal items and I additionally understand that I may not attempt to bill my own insurance company for any of these services.
